

**Acorn PLMS (Performance Learning Management System)  
is the AI-powered performance and learning management platform.**

**With a proprietary library of over 1,600 capabilities and 4,800 proficiency levels,  
Acorn helps organizations define the capabilities that matter,  
map them to roles and learning content, and build personalized development plans.**

**By showing learners how to succeed in their roles and enabling leaders to have meaningful  
performance conversations, Acorn empowers L&D, HR and people leaders to create clear  
career pathways and prove the business impact of learning.**
